Donation plea
Occident club members hear woman saved by transplants from blindness

A Canadian woman who underwent a double corneal transplant and now has good vision made a plea for the donation of healthy organs to various "banks" throughout the country at the Monday meeting of the Occident club.

Helen Coble, originally from Calgary, Canada, who was introduced by Minnie Anderson, program chairman, told of her experiences as a young girl when she was almost blind and how, through the transplants, she now has almost normal vision.

She is now spending all of her time speaking to various organizations throughout the country, making pleas for donations of vital organs, especially concerning the eye. She said that many people are able to see today who would be totally blind without the cornea bank program.

Her talk was preceded by a potluck lunch, attended by 26 members and one guest.
